ARIZONA CORPORATION COMMISSION

2001 FEB 21 A 8:55

NOTICE

AZ CORP COMMISSION
DOCUMENT CONTROL

TO: POWER PLANT AND TRANSMISSION LINE SITING COMMITTEE
MEMBERS AND INTERESTED PARTIES

SUBJECT: SALT RIVER PROJECT – SANTAN GENERATING STATION EXPANSION
DOCKET NO. L-00000B-00-0105

DATE: FEBRUARY 21, 2001

Enclosed for your review is a copy of the proposed Certificate of Environmental Compatibility in Case No. 105, which has been executed by Paul Bullis, Chairman-Designee for the Power Plant Transmission Line Siting Committee.

It is anticipated this will be scheduled for Open Meeting on March 27, 2001, and March 28, 2001, for consideration and approval by the Arizona Corporation Commission.

If you need any further assistance in the above referenced matter please feel free to contact me at (602) 542-0741, or (800) 222-7000.

Sincerely,

A handwritten signature in cursive script that reads "J. Beth Cockrill".

J. Beth Cockrill
Administrative Assistant I
Utilities Division

/jbc

Enclosure

cc: Laurie Woodall, Attorney General's Office
Shelly M. Hood, Executive Secretary's Office
Docket Control Center

1	Richard Tobin	Designee for the Arizona Department of Environmental Quality
2		
3	Dennis Sundie	Designee for the Director of the Department of Water Resources
4		
5	Mark McWhirter	Designee for the Director of the Energy Office of the Arizona Department of Commerce
6		
7	George Campbell	Appointed Member
8	Jeff McGuire	Appointed Member
9	A. Wayne Smith	Appointed Member
10	Sandie Smith	Appointed Member
11	Mike Whalen	Appointed Member

12 The Applicant was represented by Kenneth C. Sundlof, Jr., Jennings, Strouss &
13 Salmon PLC. There were seventeen intervenors: Arizona Utilities Investor Association,
14 by Ray Heyman; Arizona Corporation Commission Staff, by Janice Alward; Arizona
15 Center for Law in the Public Interest, by Timothy Hogan, Mark Kwiat, Elisa Warner,
16 David Lundgreen, Cathy LaTona, Sarretta Parrault, Mark Sequeira, Cathy Lopez,
17 Michael Apergis, Marshal Green, Charlie Henson, Jennifer Duffany, Christopher
18 Labban, Bruce Jones and Dale Borger. There were a number of limited appearances.

19 The Arizona Corporation Commission has considered the grant by the Power
20 Plant and Line Siting Committee of a Certificate of Environmental Compatibility to SRP
21 and finds that the provisions of A.R.S. §40-360.06 have complied with, and, in addition,
22 that documentary evidence was presented regarding the need for the Santan Expansion
23 Project. Credible testimony was presented concerning the local generation deficiency in
24 Arizona and the need to locate additional generation within the East Valley in order to
25 minimize transmission constraints and ensure reliability of the transmission grid. The
evidence included a study that assessed the needs of the East Valley. The analysis

1 found that the East Valley peak load currently exceeds the East Valley import capability
2 and within the next 5 years the East Valley load will exceed the load serving capability.

3 Additional testimony was presented regarding SRP's projected annual 3.7% load
4 growth in its service territory. By 2008, SRP will need approximately 2700 MW to meet
5 its load. This local generation plant will have power available during peak periods for
6 use by SRP customers.

7 At the conclusion of the hearing and deliberations, the Committee, having
8 received and considered the Application, the appearance of Applicant and all
9 intervenors, the evidence, testimony and exhibits presented by Applicant and all
10 intervenors, the comments made by persons making limited appearances and the
11 comments of the public, and being advised of the legal requirements of Arizona Revised
12 Statutes Sections 40-360 to 40-360.13, upon motion duly made and seconded, voted to
13 grant Applicant the following Certificate of Environmental Compatibility (Case No. L-
14 00000B-00-0105):

15 Applicant and its assignees are granted a Certificate of Environmental
16 Compatibility authorizing the construction of an 825 megawatt generating facility
17 consisting of three combined cycle units with a total net output of 825 megawatts
18 together with related infrastructure and appurtenances, in the Town of Gilbert, on
19 Applicant's existing Santan Generating Station site, and related switchyard and
20 transmission connections, as more specifically described in the Application (collectively,
21 the "Project"). Applicant is granted flexibility to construct the units in phases, with
22 different steam turbine configurations, and with different transmission connection
23 configurations, so long as the construction meets the general parameters set forth in the
24 application.
25

1 This certificate is granted upon the following conditions:

- 2 1. Applicant shall comply with all existing applicable air and water pollution
3 control standards and regulations, and with all existing applicable
4 ordinances, master plans and regulations of the State of Arizona, the
5 Town of Gilbert, the County of Maricopa, the United States, and any other
6 governmental entities having jurisdiction.
- 7 2. This authorization to construct the Project will expire five (5) years from
8 the date the Certificate is approved by the Arizona Corporation
9 Commission unless construction of the Project is completed to the point
10 that the project is capable of operating at its rated capacity; provided,
11 however, that Applicant shall have the right to apply to the Arizona
12 Corporation Commission for an extension of this time limitation.
- 13 3. Applicant's project has two (2) approved transmission lines emanating
14 from its power plant" transmission switchyard and interconnecting with the
15 existing transmission system. This plant interconnection must satisfy the
16 single contingency criteria (N-1) without reliance on remedial action such
17 as a generator unit tripping or load shedding.
- 18 4. Applicant shall use reasonable efforts to remain a member of WSCC, or
19 its successor, and shall file a copy of its WSCC Reliability Criteria
20 Agreement or Reliability Management System (RMS) Generator
21 Agreement with the Commission.
- 22 5. Applicant shall use reasonable efforts to remain a member of the
23 Southwest Reserve Sharing Group, or its successor.
- 24 6. Applicant shall meet all applicable requirements for groundwater set forth
25 in the Third Management Plan for the Phoenix Active Management Area.
- 26 7. With respect to landscaping and screening measures, including the
27 improvements listed in the IGA, Applicant agrees to develop and
28 implement a public process consistent with the process chart (Exhibit 89)
29 presented during the hearings, modifying the dates in the IGA with the
30 Town of Gilbert, if necessary, to correspond with the schedule in Exhibit
31 89.

32 The new Community Working Group (CWG) will consist of 12 members,
33 selected as follows: one member selected by the Town of Gilbert, four
34 members selected by neighborhood homeowner associations, four
35 representatives selected by intervenors, and three members selected by
36 SRP (not part of the aforementioned groups) who were part of the original
37 community working group. Applicant and landscaping consultants shall
38 act as advisors to the CWG. CWG meetings shall be noticed to and be

1 open to the general public. The initial meeting shall take place on an
2 evening or weekend in the Town of Gilbert.

3 The objective of the CWG shall be to refine the landscaping and mitigation
4 concept plans submitted during these hearings (Exhibit 88). The CWG shall
5 work to achieve appropriate visual mitigation of plant facilities and to
6 facilitate the design and installation of the concept plan components so as to
7 maximize the positive impact on the community and to increase, wherever
8 possible, the values of the homes in the neighboring areas. The refinement
9 of the mitigation plans shall be reasonably consistent with the planning
10 criteria of the Town of Gilbert, the desires of neighboring homeowner
11 associations, and the reasonable needs of Applicant.

12 Applicant shall retain an independent facilitator, acceptable to the CWG, to
13 conduct the CWG meetings. It shall be the role of the facilitator to assist in
14 initial education and in conducting an orderly and productive process. The
15 facilitator may, if necessary, employ dispute resolution mechanisms.

16 The CWG shall also assist in establishing reasonable maintenance
17 schedules for landscaping of Applicant's plant site in public-view areas.

18 Applicant will develop with the Town of Gilbert a continuous fund, to be
19 administered by the Town of Gilbert, to provide for the construction and
20 maintenance of off-site landscaping in the areas depicted in the off-site
21 landscaping concepts as developed by the CWG in an amount sufficient to
22 fund the concepts in Exhibit 88 or concepts developed by the CWG,
23 whichever is greater.

24 8. The visual mitigation efforts shall be in general compliance with the plans
25 and concepts presented in these proceedings and constitute a commitment
level by Applicant. Applicant will not reduce the overall level of mitigation as
set forth in its Application and this proceeding, except as may be reasonably
changed during the CWG process. The plans agreed to by the CWG shall
be approved by the Town of Gilbert.

9. Applicant shall, where reasonable to do so, plant on site trees by the fall of
2001. Because planting of trees must await the improvement of Warner
Road and the design and construction of berms, this condition will largely
apply to trees on the East side of the site, and some of the trees on the
North side. All landscaping will be installed prior to the installation of major
plant equipment such as, but not limited to, exhaust stacks, combustion
turbines, and heat recovery steam generators, except where delays are
reasonably necessary to facilitate construction activities.

10. Applicant shall operate the Project so that during normal operations the
Project shall not exceed the most restrictive of applicable (i) HUD residential

1 noise guidelines, (ii) EPA residential noise guidelines, or (iii) applicable City
2 of Tempe standards. Additionally, construction and operation of the facility
3 shall comply with OSHA worker safety noise standards. Applicant agrees
4 that it will use its best efforts to avoid during nighttime hours construction
5 activities that generate significant noise. Additionally, Applicant agrees to
6 comply with the standards set forth in the Gilbert Construction Noise
7 Ordinance, Ordinance No. 1245, during construction of the project. In no
8 case shall the operational noise level be more than 3 db above background
9 noise as of the noise study prepared for this application. The Applicant shall
10 also, to the extent reasonably practicable, refrain from venting between the
11 hours of 10:00 p.m. and 7:00 a.m.

- 12 11. Applicant will work with the Gilbert Unified School District to assist it in
13 converting as many as possible of its school bus fleet to green diesel or
14 other alternative fuel, as may be feasible and determined by Gilbert Unified
15 School District, and will contribute a minimum of \$330,000 to this effort.
- 16 12. Applicant shall actively work with all interested Valley cities, including at a
17 minimum, Tempe, Mesa, Chandler, Queen Creek and Gilbert, to fund a
18 Major Investment Study through the Regional Public Transit Authority to
19 develop concepts and plans for commuter rail systems to serve the growing
20 population of the East Valley. Applicant will contribute a maximum of
21 \$400,000 to this effort.
- 22 13. Within six months of approval of this Order by the Arizona Corporation
23 Commission, Applicant shall either relocate the gas metering facilities to the
24 interior of the plant site or construct a solid wall between the gas metering
25 facilities at the plant site and Warner Road. The wall shall be of such
strength and size as to deflect vehicular traffic (including a fully loaded
concrete truck) that may veer from Warner Road to the gas-metering site.
- 14 14. Applicant will use only SRP surface water, CAP water or effluent water for
15 cooling and power plant purposes. The water use for the plant will be
16 consistent with the water plan submitted in this proceeding and acceptable
17 to the Department of Water Resources. Applicant will work with the Town of
18 Gilbert to attempt to use available effluent water, where reasonably feasible.
- 19 15. Applicant agrees to comply with all applicable federal, state and local
20 regulations relative to storage and transportation of chemicals used at the
21 plant.
- 22 16. Applicant agrees to maintain on file with the Town of Gilbert safety and
23 emergency plans relative to emergency conditions that may arise at the
24 plant site. On at least an annual basis Applicant shall review and update, if
25 necessary, the emergency plans. Copies of these plans will be made
available to the public and on Applicant's web site. Additionally Applicant

1 will cooperate with the Town of Gilbert to develop an emergency notification
2 plan and to provide information to community residents relative to potential
3 emergency situations arising from the plant or related facilities. Applicant
4 agrees to work with the Gilbert police and fire departments to jointly develop
5 on site and off-site evacuation plans, as may be reasonably appropriate.
6 This cooperative work and plan shall be completed prior to operation of the
7 plant expansion.

8 17. In obtaining air offsets required by EPA and Maricopa County, Applicant will
9 use its best efforts to obtain these offsets as close as practicable to the plant
10 site.

11 18. In order to reduce the possibility of generation shortages and the attendant
12 price volatility that California is now experiencing, SRP will operate the
13 facilities consistent with its obligation to serve its retail load and to maintain a
14 reliable transmission system within Arizona.

15 19. Beginning upon operation of the new units, Applicant will establish a citizens'
16 committee, elected by the CWG, to monitor air and noise compliance and
17 water quality reporting. Applicant will establish on-site air and noise
18 monitoring facilities to facilitate the process. Additionally Applicant shall
19 work with Maricopa County and the Arizona Department of Environmental
20 Quality to enhance monitoring in the vicinity of the plant site in a manner
21 acceptable to Maricopa County and the Arizona Department of
22 Environmental Quality. Results of air monitoring will be made reasonably
23 available to the public and to the citizens' committee. Applicant shall provide
24 on and off-site noise monitoring services (at least on a quarterly basis),
25 testing those locations suggested by the citizens' committee. The off-site air
monitoring plan shall be funded by the Applicant and be implemented before
operation of the plant expansion.

20. Applicant will explore, and deploy where reasonably practicable, the use of
available technologies to reduce the size of the steam plumes from the unit
cooling towers. This will be a continuing obligations throughout the life of the
plant.

21. SRP will, where practicable, work with El Paso Natural Gas Company to use
the railroad easements for the installation of the new El Paso gas line.

22. Other than the Santan/RS 18 lines currently under construction, Applicant
shall not construct additional Extra High Voltage transmission lines (115kV
and above) into or out of the Santan site, including the substation on the site.

23. Applicant will replace all Town of Gilbert existing street sweepers with
certified PM10 efficient equipment. A PM10 efficient street sweeper is a
street sweeper that has been certified by the South Coast Air Quality

1 Management District (California) to comply with the District's performance
2 standards under its Rule 1186 (which is the standard referenced by the
Maricopa Association of Governments).

3 24. Applicant shall work in a cooperative effort with the Office of Environmental
4 Health of the Arizona Department of Health Services to enhance its
environmental efforts.

5 25. Applicant shall operate, improve and maintain the plant consistent with
6 applicable environmental regulations and requirements of the Environmental
7 Protection Agency, the Arizona Department of Environmental Quality,
Maricopa County and the Town of Gilbert.

8 26. Applicant shall actively work in good faith with Maricopa County in its efforts
9 to establish appropriate standards relative to the use of distillate fuels in
Valley generating facilities.

10 27. Applicant shall install continuous emission monitoring equipment on the new
11 units and will make available on its website emissions data from both the
12 existing and new units according to EPA standards. Applicant shall provide
13 information to the public on its website in order to assist the public in
interpreting the data, and provide viable information in a reasonable time
frame.

14 28. Applicant will comply with the provisions of the Intergovernmental
15 Agreement dated April 25, 2000 between Applicant and the Town of Gilbert,
as modified pursuant to this Certificate.

16 29. During the proceeding neighbors to the plant site raise significant concern
17 about the impact of the plant expansion on residential property values. In
18 performing each of the conditions in this order Applicant, in conjunction
19 where applicable, with the Town of Gilbert and the plant site neighbors, shall
consider and attempt to maximize the positive effect of its activities on the
values of the homes in the surrounding neighborhoods.

20 30. Applicant shall construct the auxiliary boiler stack at such height as may be
21 determined by air modeling requirements. Applicant shall situate the
auxiliary boiler stack so that it is not visible from off the plant site.

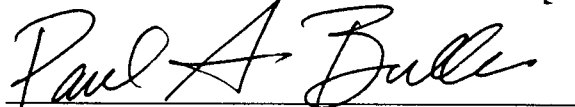

22 31. Applicant will construct the heat recovery steam generators ("HRSG")
23 approximately 15 feet below grade and will construct the HRSGs so that the
24 overall height of the HRSG module from the natural grade is no more than
80 feet.

25 32. Applicant will complete the installation of the dry low NOX burners on the
existing units prior to the construction of the new units.

- 1 33. Applicant shall not transfer this Certificate to any other entity for a period of
2 20 years from the date of approval by the Corporation Commission, other
3 than as part of a financing transaction where operational responsibilities will
4 remain with Applicant, and where Applicant will continue to operate the plant
5 in accordance with this Certificate.
6
7 34. Applicant shall post on its website, when its air quality permit application is
8 submitted to the Maricopa County Environmental Services Department.
9 Also, Applicant shall post on its website any official notice that may be
10 required to be posted in newspapers for its air quality permit application.
